EDUCATION

2024 - 2027 (expected)
EÖTVÖS LORÁND UNIVERSITY

- Bachelor of Computer Science

SKILLS

- Precise problem solving
- Analytical thinking
- Independent learning and personal development
- Effective communication
- Team collaboration
- Intermediate Python and C# (OOP) skills
- Basic knowledge of C, Java, Haskell, SQL

LANGUAGES

- Hungarian - fluent
- German - intermediate (passive)
- English - intermediate

HOBBIES

- Coding
- Music
- Chess
- Sports

PROFILE

I am a motivated computer science student with strong problem-solving and analytical skills. I focus on writing clean and maintainable code. I would like to learn new technologies and work in a team. I am also seeking an opportunity to grow as a junior software developer.

WORK EXPERIENCE

- Logiscool**
Trainer
2021 - 2022
 - Introducing primary school students to the world of programming
 - Introduction to programming theorems and recursion for advanced students
 - Teaching several groups at the same time
 - Individual lesson planning

PROJECTS

- Bomber game** (C# / .NET)
 - Tech stack:** C#, .NET, WPF, Avalonia, WinForms, MSTest
 - Architecture & Testing:** Event-driven game logic, modular OOP architecture, unit testing with MSTest
 - GUI:** Multi-framework GUI implementation (WPF, Avalonia, WinForms)
- Personal Portfolio website**
 - Tech stack:** HTML5, CSS3, Bootstrap
 - Design & Standards:** Mobile-first responsive layout adhering strictly to modern HTML5 and CSS standards
 - Features:** Clean, static personal portfolio showcasing developer projects, skills, and background
- AES-FFX Format-Preserving Encryption** (Python)
 - Tech stack:** Python
 - Standards & Algorithms:** NIST-compliant implementation of format-preserving encryption, supporting A2 and A10 parameter collections
 - Key Use Cases:** Tailored for credit card data encryption
- Parking Lot Reservation API** (Python)
 - Tech stack:** Python, FastAPI, SQLite, SQLAlchemy, Pydantic
 - DevOps & Tools:** Docker, Git version control, pytest
 - Features & Docs:** Clean architecture, unit/integration testing, detailed documentation & AI prompt history

OTHERS

- Basic experience in Linux-based systems (Ubuntu server, Kali Linux).
- Version control and sharing projects with Git, GitHub
- Interest in cryptography and cybersecurity
